

Fix Tells Why Reo Chose Name Of Wolverine

Strength of Animal Suggests Title for New Automobile

The Reo Motor Car Company seems to have a flair for selecting unusual names for its motor car products, and much comment has been caused since the first of the year, when the Flying Cloud was selected as the name of the 1927 offering. Now this comment has been augmented by bringing out a car called the Wolverine.

The reasons given by Reo are good for their selections in both instances. The Flying Cloud was the most famous of all American clipper ships and set up record after record. The Wolverine is just as easily explained, according to M. J. Fix, local Reo dealer. "Stories about animals have always held a peculiar fascination for children and grown-ups alike," he says. "Throughout the ages man has often turned to his four-footed brothers for examples of conduct, and has built many precepts for his own guidance from animal habits. "As early as 1582 the wolverine was noted for its great strength. A writer of that period collected the superstitious tales of hunters and travelers, combining them into an account which gave the wolverine a supernatural ability. Modern writers bear out the ancients in stating that the wolverine is the most powerful animal of its size, that it travels long distances, that it is silent, and that, as far as per-

sistence is concerned, it is the original 'go-getter.' Mr. Fix says of the new car: "The announcement of the Wolverine marks a step forward by the Reo Motor Car Company in the strengthening of its dealer organization so as to better serve Reo owners. The lower-priced car will enable the dealer to solidify himself in the community which he serves and give better account of himself on the Flying Cloud as well as the Wolverine. It is the first time in more than eight years that Reo has had a car selling for less than \$1500, and naturally there is going to be an increase in Reo business as a result."

I. O. O. F. NOTES

INVITING DISHES

For those who cannot eat meat often a main dish is a problem which needs thought, as it must contain nourishment and at the same time be attractive enough to appeal to the taste.

Carrots With Rice.—Scrape and cut into thin slices a dozen small carrots, cook them tender in a seasoned stock to cover. Prepare a white sauce and place the carrots with cooked rice in alternate layers with the white sauce, season well, cover with buttered crumbs, and bake until the crumbs are brown.

Noodles With Peppers.—Those who like the flavor of the green pepper will enjoy this dish: Cook sufficient noodles to serve the family; when tender drain and add a small can of pimentos, the canned red peppers, add a cupful of stock or gravy, salt and pepper and a tablespoonful of butter. Simmer together for ten minutes and serve hot.

Spanish Rice.—Chop one small onion fine, add one chopped green pepper, and cook ten minutes in two tablespoonfuls of oil. Add four sliced tomatoes and one-half cupful of hot water. Cook to the boiling point, then add a cupful of rice. Cook slowly one hour, adding more water if needed to keep it moist. The rice should be previously cooked before adding to this dish.

Curried Cauliflower.—Boil a firm white head of cauliflower in salted water; when tender, drain and pour over it the following: Melt two tablespoonfuls of chopped onion, two teaspoonfuls of flour and one of curry powder, a teaspoonful of chopped apple; cook all together, then add one cupful each of water and milk with salt to season, pour over the cauliflower, and serve at once.

Cottage Cheese Soup.—Take a pint of milk, a tablespoonful of butter, the same of flour, cooked together; half a teaspoonful of salt, pepper to taste, and a half cupful of cheese. Add onion juice to season, if liked. Melt the butter, add flour, and cook, then add the milk and cheese.

Long, Low Roof Lines Beautify This Home

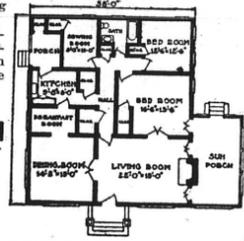

REAL BUNGALOW HAS PLENTY OF ROOM

This family bungalow gives the utmost in a home at minimum cost. It is certain to delight the housekeeper with its pleasing exterior of portland cement stucco of an attractive shade, as well as the inside arrangement.

The long low roof line, unbroken by gables or dormers, is beautiful in its simplicity, especially in this instance where colored concrete roofing is used.

The house is fireproof, for the portland cement stucco has been applied directly to walls of concrete masonry units. (Such walls are built either of hollow blocks or concrete structural tile.) Every woman who sees the floor plan will be delighted at the ideal room arrangement. She will be particularly fond of the sewing room, so convenient to the woman's workshop—the kitchen. An additional feature is the breakfast nook, lighted by a double casement window. Double doors connect the dining and living rooms, while a roomy sun porch, with ten windows which can be replaced with screens in summer time, gives year-round comfort. Two large bedrooms with ample closet space are convenient to the bedroom and linen closet. Every

home comfort is built into this bungalow on one floor, thus saving many steps. Set far back on a lot with a terraced front lawn, this bungalow attracts much favorable notice in Wilmington, N. C., where the above photograph was taken.
